

THIS END AGAINST FIBREGLASS

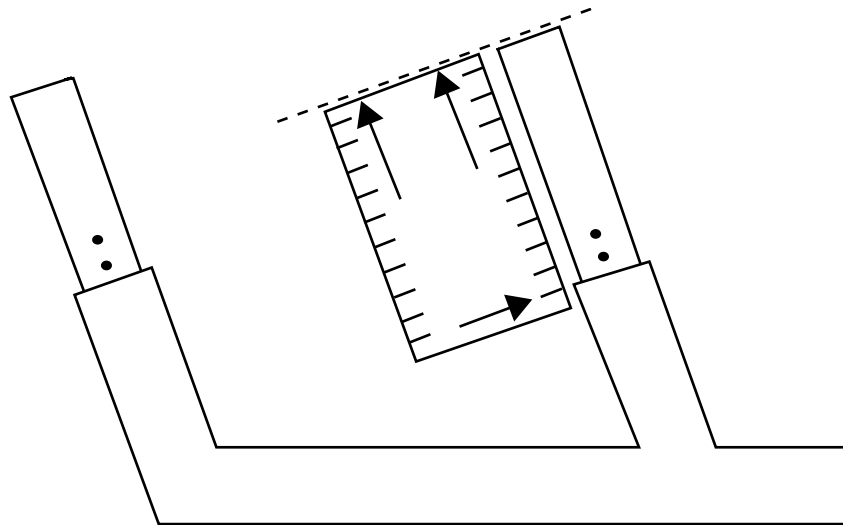

# RS800 Rack Ruler

How to use:

1) Print Rack Ruler at A4 size, no scaling, check 50mm long arrow below.

2) Put the top corner against the fibreglass where the inboard end of the rack is fixed.

3) With the rack pins in the holes, read off the scale at the inboard end of the outer rack tube:

On Rack 10 (maximum) there should be 4 holes of the inner rack tube showing, 3 holes for Rack 9, 2 holes for Rack 8, 1 for Rack 7.

4) Fit corrector weights

5) Go racing!

Check: 50mm
